HELPFUL HINTS

Month/Season coins can also be used to mark special days of the month.

For marking the current day we like to make our own marker or tie one of the leather straps into a circle and hang it on the peg. This way you can still see the number, which can be very convenient. There are a couple more options here...

You can turn over each number after day completes.

You can make your own personalized marker and move it each day.

You can use one of the Weather/Season coins to mark the day.

What's Included With Your New Family Calendar

1 piece Solid Wood Month Board

1 piece Solid Wood Moon–Phase Board

1 piece Wooden Stand for Flat Surfaces

1 piece Wood Storage Box for Coins & Cards

6 piece Reversible Month Cards

31 piece Number Coins

12 piece Weather & Season Coins

8 piece Moon–Phase Coins

60 piece Wood Mounting Pegs

2 piece Metal Rings to Attach Moon–Phase Board

2 piece Leather Straps (Alternate Way to Attach Moon–Phase Board)

1 piece Drywall Plug & Screw

INSTRUCTIONS

1 Put wood pegs into the Calendar Board and Moon–Phase Board. If they are a little tight, gently pound them in.

2 Hang Month Cards, and Coins as shown in Pictures Below.

3 If your Calendar is going on a flat surface use the included wood stand. Adjust the screw if necessary.

4 If your Calendar is going on a flat surface using the stand we put the Moon–Phase board in front of the calendar on the flat surface. It is not necessary to use the Moon–Phase Board.

5 If you are wall-mounting the calendar you can use either the metal rings or leather straps to connect Calendar and Moon–Phase Board together. Use two holes on bottom of Calendar and top two holes on Moon–Phase Board.

6 If your Calendar is going on the wall drill a hole slightly smaller than drywall anchor, press drywall anchor into wall, insert screw into drywall anchor, leaving the screw-head out a little, hang calendar from the screw.
